**Preamble and Explanatory Notes
Section Weighting**

Version: V072017

The Complete Denture Evaluation Criteria

This examination tests candidates in the area of complete dentures. The complete denture evaluation is comprised of three distinct and separate sections. These are:

1. Laboratory Criteria
2. Clinical Criteria
3. Treatment Planning, Patient Records, and Clinical Presentation Criteria

Treatment Plan and Patient Records

The treatment plan should be prepared prior to the examination, and must be provided to the examiners for scoring **prior to beginning any intra-oral work**. Candidates should read and be familiar with the requirements for the treatment plan. The treatment plan must meet the standards established by the College of Denturists of British Columbia's Standards of Practice.

The patient records must meet the requirements of section 7.01 of the College of Denturists of British Columbia's bylaws.
